

Data Appendix

Adam Chow, Tori Stoner, Aniyah MicWilliams

10/22/24

Variable: filename

Definition: Name of the ASL image

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: width

Definition: Width of the entire image

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: height

Definition: height of the entire image

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: class

Definition: Letter classification of the ASL image

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: xmin

Definition: Position on the x axis of the picture where the hand configuration begins

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: xmax

Definition: Position on the x axis of the picture where the hand configuration ends

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: ymin

Definition: Position on the y axis of the picture where the hand configuration begins

Creation: Provided by original ASL dataset

Missing value: No missing values

Variable: ymax

Definition: Position on the y axis of the picture where the hand configuration ends

Creation: Provided by original ASL dataset

Missing value: No missing values
